

Cypress Fairbanks
Medical Center Hospital

August 5, 2009

Dear Carrier,

We are pleased to announce a new workers compensation network partnership between Coventry Healthcare of Texas and the Tenet Texas hospitals, including Cypress Fairbanks Medical Center. Coventry Healthcare has consistently demonstrated their ability and willingness to offer effective network options to the community, and Tenet is pleased to offer Coventry's members the highest level of access to our quality programs and services, which are designed to meet the health care needs of your clients.

We would like to point out a unique cost-effective solution available through the Occupational Medicine Clinic, which is a part of Cypress Fairbanks Medical Center. The Occupational Medicine Clinic is a conveniently-located, specialty clinic with comprehensive physician and hospital services for occupational health issues. Your client's needs can be served through this single resource, which eliminates financial interests in outside referrals and optimizes appropriate therapy and physician utilization. Additionally, **all physician and clinic services are billed by the clinic, offering a single resource for all payment matters.** We invite you and your clients to visit the Cypress Fairbanks Web site at <http://www.cyfairhospital.com> to experience a virtual tour of both the hospital and the Occupation Medicine Clinic. We encourage your local representatives to contact Mike Black at (281) 463-9696 to schedule a site visit of the clinic and for any additional information. The Occupation Medicine Clinic is located at 15003 FM 529, Suite A-2, Houston, TX 77095, just west of Cypress Fairbanks Medical Center.

Your notices of network expansion for all the Tenet Texas facilities, including Cypress Fairbanks Medical Center, will be routed to you in the next 10 days.

We are excited about this network expansion and look forward to bringing continued value added services to your and your clients.

Sincerely,

Terry Wheeler
Chief Executive Officer
Cypress Fairbanks Medical Center

Steve Watkins
Director, Network Management
Coventry Healthcare
