

Coventry and Paradigm Outcomes Join Together to Address Complex Claim Pharmacy Management

Downers Grove, IL. (September 19, 2018) – Coventry, a leading provider of care and cost management solutions for workers' compensation, has been selected to provide Pharmacy Benefit Management (PBM) services for Paradigm Outcomes through its PBM First Script.

Paradigm Outcomes is a market leader in managing catastrophic and complex cases for the workers' compensation industry, and addresses the needs of those with traumatic brain injuries, spinal cord injuries, amputations, burns, and chronic pain.

First Script is the pharmacy benefit and drug utilization management program offered as part of the Coventry suite of products, and will bring an end-to-end pharmacy solution designed specifically for workers' compensation to Paradigm Outcomes' portfolio.

“Coventry’s pharmacy solution ensures that injured workers receive prescriptions for the complex claims being managed by Paradigm, while at the same time allowing us to provide oversight and intervene on potentially problematic drug utilization at the earliest point possible,” said Art Lynch, President and CEO of Coventry. “We are excited to work with Paradigm in effectively managing drug utilization from the earliest point possible, given that these complex cases often involve extensive prescription activity.”

About Coventry
