

Dan Maldonado

Dan Maldonado, DC, is clinical director for utilization review and physician advisory services at Genex Services, where he oversees the credentialing, training, and quality assessment of all clinical peer reviewers. Dr. Maldonado collaborates with medical directors and physician advisors to deliver effective clinical direction throughout the peer review operations.

With more than 10 years of experience in peer review operations, quality assurance, management and clinical direction in workers' compensation, Dr. Maldonado works closely with regulators and compliance groups to ensure all peer review services meet state regulations and national accreditation standards.

Dr. Maldonado holds a doctor of chiropractic medicine degree from Palmer College of Chiropractic, San Jose, CA.
